If you are interested in exploring the hobby of radio-controlled model boating, already own a model boat and perhaps looking for assistance, or a suitable place to run the boat, you have come to the right place. The club activity promotes and encourages questions to be asked, often with answers, or possible solutions offered to the novice or expert as well. The club environment is intended to encourage a safe and friendly opportunity for the enjoyment of the model boating hobby, as well as the sport of racing these boats in a controlled environment.
